EILEEN 3

EILEEN 3 is the versatile Compact Camera Core from Senssight, the technology expert for thermal vision systems. Based on the SeeCube family, the proven hardware electronics of FullScale, it achieves market-leading performance in term of size, power and image quality.

EILEEN 3 streamlines the integration of a cost-effective camera core into various thermal imaging solutions and allow our customers to focus on value-added integration.

Resolution: QVGA 320 x 240 pixels

Frame rate: 60 FPS

Dimension: 18 x 17 mm

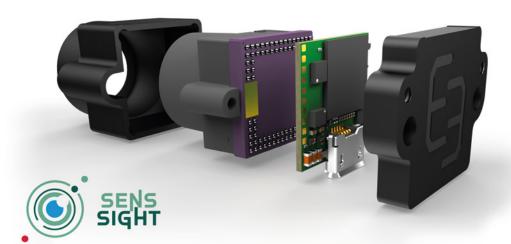

HFoV: 70°, 42° or 28°

NETD: < 50 mK standard

Shutter: Native ShutterLess

Interfaces: USB

Sensor: LYNRED ATI320

Calibrated Core provided with SDK supporting Thermography

- +/- 2°C precision
- Down to 20 mK NETD with processing
- Running on PC, Jetson, Raspberry Pi...
- Advanced image enhancement
